

**Declaration of Compliance with the Code of Conduct for Suppliers and Metering companies under their responsibility operating**

(hereafter: Code of Conduct for energy suppliers and metering companies)

Regarding data available through metering devices to be read remotely (smart meters) from consumers and small and medium enterprises ('kleinverbruikers').

Name legal entity: Essent N.V.

Statutory place of business: 's-Hertogenbosch

Period: 1 January 2019 - 31 December 2019

Essent N.V. in 's-Hertogenbosch, or one of its subsidiaries, uses data obtained from small-scale consumption metering which devices are read remotely with the purpose to provide a good performance of its services. In addition to the Dutch Privacy Act ('Wet bescherming persoonsgegevens'), suppliers as well as metering companies working under their responsibility in the Dutch energy sector set up a Code of Conduct on the use, the

capturing, the sharing and the storing of data obtained from small scale consumption measuring devices which are read remotely.

We hereby confirm that Essent N.V., or its subsidiaries have complied with the rules and obligations as set out in the Code of Conduct for energy suppliers and metering companies during 2019.

2 September, 2020

Mr. P. Lammers  
Chief Executive Officer
